

ANNOUNCING THE NEW LIGHTWEIGHT SILVERSTONE SINGLE SEATER HARNESS

Previously developed and supplied exclusively to two Formula 1 teams, the Lightweight Silverstone Single Seater harness is now, for the first time, available to all our other customers.

The combination of titanium tongues and release box components, aircraft grade aluminium casings, lightweight adjusters and webbing has enabled overall weight to be minimised whilst maintaining the highest possible strength and integrity.

Weighing approx. 1.09Kg including all components, this harness is probably the highest specification belt that has ever been made available to the market.

Some manufacturers give their standard harnesses names implying light weight; we call it the Lightweight Silverstone – because it is.

PIONEERING HISTORY, ULTIMATE SAFETY

Willans have been leaders in driver safety since introducing harnesses to Formula One in 1967 and are celebrating securing drivers' across the globe for over 40 years. The company has supplied at least 15 Formula One World Champions since its inception.

Willans continue to provide harnesses to top drivers and teams participating in Le Mans, BTCC, Nascar, IRL, V8 Supercars as well as thousands of professional and amateur competitors

in all other areas of motorsport throughout the world. Willans also provided the harnesses for Andy Green when he broke the World Land Speed Record in Thrust SSC and for the Transatlantic Record broken by Virgin Atlantic Challenger.

Willans combine a distinguished heritage with state of the art products to offer their customers the best harness solutions available.

All Willans harnesses are manufactured at their ISO9001 accredited facility in Stockbridge, England.

CHECK THE LABEL BEFORE YOU RACE

For security and peace of mind, there is only one harness to consider.

**LEADERS IN
DRIVER SAFETY
SINCE 1967**

Willans FIA and SFI approved harnesses are offered in two ranges, the Club and Silverstone, with either 2" or 3" lap straps. The Club range provides a quality product at an affordable price utilising high quality steel adjusters. The Silverstone range includes lightweight aluminium smooth action adjusters for the discerning competitor. These are offered on the shoulder straps only or both the shoulder and the lap straps.

SALOON / GT

FIA APPROVED

Silverstone 6 x 6

A range of saloon and GT harnesses with 4 or 6 straps offered in the Club and Silverstone ranges including HANS® only versions. On 6 point harnesses several crutch strap options are offered.
